Long-Term / Concentrated / Engaged / Value

Founded in 1975, Southeastern Asset Management is an independent, global investment firm managing \$4.1 billion. Partnership is core to all that we do, and Southeastern's employees and related entities are the largest investors across the Longleaf Partners Funds. Our global investment team are generalists, tasked with finding the best bottom-up opportunities across the globe.

The Fund seeks to own a concentrated portfolio of our best 18-22 ideas that meet our Business, People, Price investment criteria. We invest with a 3-5 year investment horizon and take advantage of short-term volatility to own high quality businesses, run by capable management teams, whose stock prices are trading temporarily at a discount. Our extensive, global network allows us to engage with our management partners to help drive long-term value creation.

Before investing in any Longleaf Partners Fund, you should carefully consider the Fund's investment objectives, risks, charges, and expenses. For a current Prospectus and Summary Prospectus, which contain this and other important information, visit southeasternasset.com/account-resources. Please read the Prospectus and Summary Prospectus carefully before investing.

RISKS - The Fund is subject to stock market risk, meaning stocks in the Fund may fluctuate in response to developments at individual companies or due to general market and economic conditions. Also, because the Fund generally invests in 15 to 25 companies, share value could fluctuate more than if a greater number of securities were held. Investing in non-US securities may entail risk due to non-US economic and political developments, exposure to non-US currencies, and different accounting and financial standards. These risks may be higher when investing in emerging markets.

The FTSE Developed Index is a market-capitalization weighted index representing the performance of large and mid-cap companies in Developed markets. The index is derived from the FTSE Global Equity Index Series (GEIS), which covers 98% of the world's investable market capitalization. An index cannot be invested in directly.
