P/V is a calculation that compares the prices of the stocks in a portfolio to Southeastern's appraisal of their intrinsic values. The ratio represents a single data point about a Fund and should not be construed as something more. P/V does not guarantee future results, and we caution investors not to give this calculation undue weight.

Returns reflect reinvested capital gains and dividends but not the deduction of taxes an investor would pay on distributions or share redemptions. Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the fund may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by visiting southeasternasset.com.

Before investing in any Longleaf Partners Fund, you should carefully consider the Fund's investment objectives, risks, charges, and expenses. For a current Prospectus and Summary Prospectus, which contain this and other important information, visit southeasternasset.com/account-resources. Please read the Prospectus and Summary Prospectus carefully before investing.

RISKS - The Fund is subject to stock market risk, meaning stocks in the Fund may fluctuate in response to developments at individual companies or due to general market and economic conditions. Also, because the Fund generally invests in 15 to 25 companies, share value could fluctuate more than if a greater number of securities were held. Smaller company stocks may be more volatile with less financial resources than those of larger companies.

The Russell 2000 Index measures the performance of 2000 US small-cap companies. The Russell 2000 Value Index is a subset of the Russell 2000 Index based on lower price/book ratios and growth rates. The indexes are unmanaged, include reinvested dividends, do not reflect the deduction of fees or expenses, and cannot be invested in directly.
